

**KUWAIT HOTELS COMPANY K.S.C.P.  
AND ITS SUBSIDIARIES**

**CONSOLIDATED FINANCIAL STATEMENTS**

**31 DECEMBER 2019**

## INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF KUWAIT HOTELS COMPANY K.S.C.P.

### Report on the Audit of the Consolidated Financial Statements

#### *Opinion*

We have audited the consolidated financial statements of Kuwait Hotels Company K.S.C.P. (the "Parent Company") and its subsidiaries (collectively, the "Group"), which comprise the consolidated statement of financial position as at 31 December 2019, and the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2019, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

#### *Basis for Opinion*

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the *International Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Key Audit Matters*

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each key audit matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statement

### Report on the Audit of the Consolidated Financial Statements (continued)

#### *Key Audit Matters (continued)*

##### *Expected credit losses (ECL) for trade receivables*

As at 31 December 2019, trade receivables amounted to KD 1,606,595 representing 22% of total assets of the Group.

The Group determines the expected credit losses on trade receivables by using a provision matrix that is based on historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. Trade receivables have been grouped based on shared credit risk characteristics and days past due.

Due to the significance of trade receivables and the complexity involved in the ECL calculation, this was considered as a key audit matter.

Our audit procedures included, among others, the following:

- We assessed the reasonableness of the assumptions used in the ECL calculation by comparing them with historical data adjusted for current market conditions and forward-looking information;
- We performed substantive procedures to test, on a sample basis, the completeness and accuracy of the information included in the debtors' ageing report;
- Further, in order to evaluate the appropriateness of management judgements, we verified on a sample basis, the customer's historical payment patterns and whether any post year-end payments had been received up to the date of completing our audit procedures.; and
- We also considered the adequacy of the Group's disclosures relating to the ECL, management's assessment of the credit risk and their responses to such risks in Note 23 to the consolidated financial statements.

## **INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF KUWAIT HOTELS COMPANY K.S.C.P. (continued)**

### **Report on the Audit of the Consolidated Financial Statements (continued)**

#### *Other information included in the Group's 2019 Annual Report*

Management is responsible for the other information. Other information consists of the information included in the Group's 2019 Annual Report, other than the consolidated financial statements and our auditor's report thereon. We obtained the report of the Parent Company's Board of Directors, prior to the date of our auditor's report, and we expect to obtain the remaining sections of the Annual Report after the date of our auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### *Responsibilities of Management and those Charged with Governance for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

#### *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements*

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Building a better  
working world

## INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF KUWAIT HOTELS COMPANY K.S.C.P. (continued)

### Report on the Audit of the Consolidated Financial Statements (continued)

#### *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)*

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ▶ Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## **INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF KUWAIT HOTELS COMPANY K.S.C.P. (continued)**

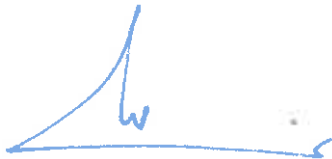

### **Report on the Audit of the Consolidated Financial Statements (continued)**

#### *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)*

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

Furthermore, in our opinion proper books of account have been kept by the Parent Company and the consolidated financial statements, together with the contents of the report of the Parent Company's Board of Directors relating to these consolidated financial statements, are in accordance therewith. We further report that, we obtained all the information and explanations that we required for the purpose of our audit and that the consolidated financial statements incorporate all information that is required by the Companies Law No. 1 of 2016 as amended, and its executive regulations as amended or by the Parent Company's Memorandum of Incorporation and Articles of Association, that an inventory was duly carried out and that, to the best of our knowledge and belief, no violations of the Companies Law No. 1 of 2016 ,as amended, and its executive regulations, as amended, or of the Parent Company's Memorandum of Incorporation and Articles of Association have occurred during the year ended 31 December 2019 that might have had a material effect on the business of the Parent Company or on its financial position.

Set out below are the associates of the Group as at 31 December:

Name	Country of incorporation	% equity interest		Principal activities
		2019	2018	
Abu Nawas for Tourism and Services	Tunisia	50%	50%	Travel and tourism related services.
Caf Café Company W.L.L.	Kuwait	50%	-	Catering services

## 2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

### 2.1 BASIS OF PREPARATION

The consolidated financial statements have been prepared on a historical cost basis, except for investment securities that have been measured at fair value.

The consolidated financial statements are presented in Kuwaiti Dinars (KD), which is also the functional currency of the Parent Company.

The consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

### 2.2 BASIS OF CONSOLIDATION

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries as at 31 December 2019. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- ▶ Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- ▶ Exposure, or rights, to variable returns from its involvement with the investee
- ▶ The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- ▶ The contractual arrangements with the other vote holders of the investee
- ▶ Rights arising from other contractual arrangements
- ▶ The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interests and other components of equity, while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)****2.3 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES****New and amended standards and interpretations****IFRS 16 Leases**

IFRS 16 supersedes IAS 17 Leases, IFRIC 4 *Determining whether an Arrangement contains a Lease*, SIC-15 *Operating Leases-Incentives* and SIC-27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise most leases on the balance sheet.

Lessor accounting under IFRS 16 is substantially unchanged from IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Therefore, IFRS 16 does not have an impact for leases where the Group is the lessor.

The Group adopted IFRS 16 using the modified retrospective method of adoption with the date of initial application of 1 January 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initially applying the standard recognised at the date of initial application. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying IAS 17 and IFRIC 4 at the date of initial application. The Group also elected to use the recognition exemptions for lease contracts that, at the commencement date, have a lease term of 12 months or less and do not contain a purchase option ('short-term leases'), and lease contracts for which the underlying asset is of low value ('low-value assets').

The adoption IFRS 16 did not have impact on the accumulated losses as at 1 January 2019.

The effect of adoption IFRS 16 as at 1 January 2019 on the consolidated statement of financial position is, as follows:

	<i>KD</i>
<b>Assets</b>	
Right-of-use assets	<b>1,508,691</b>
<b>Liabilities</b>	
Lease liabilities	<b>1,508,691</b>

The Group has discounted its future lease obligations using its incremental borrowing rate which is determined at 5% at the reporting date.

**a) Nature of the effect of adoption of IFRS 16**

Before the adoption of IFRS 16, the Group classified its leases (as lessee) at the inception date as operating lease. In an operating lease, the leased property was not capitalised and the lease payments were recognised as rent expense in consolidated statement of profit or loss on a straight-line basis over the lease term. Any prepaid rent and accrued rent were recognised under other assets and other liabilities, respectively.

Upon adoption of IFRS 16, the Group applied a single recognition and measurement approach for all leases except for short-term leases and leases of low-value assets. The standard provides specific transition requirements and practical expedients, which have been applied by the Group.

**► Leases previously accounted for as operating leases**

The Group recognised right-of-use assets and lease liabilities for those leases previously classified as operating leases, except for short-term leases and leases of low-value assets. The right-of-use assets were recognised based on the carrying amount as if the standard had always been applied, apart from the use of incremental borrowing rate at the date of initial application. Lease liabilities were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of initial application.

# Kuwait Hotels Company K.S.C.P. and its Subsidiaries

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2019

### 2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

#### 2.3 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (continued)

##### New and amended standards and interpretations (continued)

##### IFRS 16 Leases (continued)

▸ *Leases previously accounted for as operating leases (continued)*

The Group also applied the available practical expedients wherein it:

- Elected to use the transition practical expedient to not reassess whether a contract is or contains a lease as at 1 January 2019. Instead, the Group applied the standard only to contracts that were previously identified as leases applying IAS 17 and IFRIC 4 as at 1 January 2019;
- Used a single discount rate to a portfolio of leases with reasonably similar characteristics;
- Relied on its assessment of whether leases are onerous immediately before the date of initial application;
- Applied the short-term leases exemptions to leases with lease term that ends within 12 months at the date of initial application;
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application;
- Used hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

Based on the above, as at 1 January 2019:

- Right-of-use assets of KD 1,508,691 were recognised and presented separately in the consolidated statement of financial position.
- Additional lease liabilities of KD 1,508,691 were recognised and presented separately in the consolidated statement of financial position.

The lease liabilities as at 1 January 2019 can be reconciled to the operating lease commitments as of 31 December 2018, as follows:

	<i>KD</i>
Operating lease commitments as at 31 December 2018	1,020,205
Lease payments relating to renewal periods not included in operating lease commitments as at 31 December 2018	733,727
Weighted average incremental borrowing rate as at 1 January 2019	5%
Discounted operating lease commitments and lease liabilities as at 1 January 2019	<u>1,508,691</u>

#### b) Summary of new accounting policies

Set out below are the new accounting policies of the Group upon adoption of IFRS 16, which have been applied from the date of initial application:

##### ▸ *Right-of-use assets*

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

##### ▸ *Lease liabilities*

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.3 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (continued)**

**New and amended standards and interpretations (continued)**

**IFRS 16 Leases (continued)**

**b) Summary of new accounting policies (continue)**

*▶ Lease liabilities (continued)*

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

*▶ Short-term leases and leases of low-value assets*

The Group applies the short-term lease recognition exemption to its short-term leases of property and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value (i.e., below KD 1,500 equivalent to USD 5,000). Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

*▶ Significant judgement in determining the lease term of contracts with renewal options*

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has the option, under some of its leases to lease the assets for additional terms of three to five years. The Group applies judgement in evaluating whether it is reasonably certain to exercise the option to renew. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy).

Other amendments to IFRSs which are effective for annual accounting period starting from 1 January 2019 did not have any material impact on the accounting policies, financial position or performance of the Group.

**2.4 STANDARDS ISSUED BUT NOT YET EFFECTIVE**

Standards issued but not yet effective up to the date of issuance of the Group's financial statements are listed below. The Group intends to adopt those standards when they become effective. However, the Group expects no significant impact from the adoption of the amendments on its financial position or performance.

**Amendments to IFRS 3: Definition of a Business**

In October 2018, the IASB issued amendments to the definition of a business in IFRS 3 *Business Combinations* to help entities determine whether an acquired set of activities and assets is a business or not. They clarify the minimum requirements for a business, remove the assessment of whether market participants are capable of replacing any missing elements, add guidance to help entities assess whether an acquired process is substantive, narrow the definitions of a business and of outputs, and introduce an optional fair value concentration test. New illustrative examples were provided along with the amendments.

Since the amendments apply prospectively to transactions or other events that occur on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.4 STANDARDS ISSUED BUT NOT YET EFFECTIVE (continued)**

**Amendments to IAS 1 and IAS 8: Definition of Material**

In October 2018, the IASB issued amendments to IAS 1 *Presentation of Financial Statements* and IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* to align the definition of 'material' across the standards and to clarify certain aspects of the definition. The new definition states that, 'Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.'

The amendments to the definition of material is not expected to have a significant impact on the Group's consolidated financial statements.

Additional disclosures will be made in the consolidated financial statements when these standards, revisions and amendments become effective. The Group, however, expects no material impact from the adoption of the amendments on its financial position or performance.

**2.5 SIGNIFICANT ACCOUNTING POLICIES**

**2.5.1 Business combinations and acquisition of non-controlling interests**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Contingent consideration, resulting from business combinations, is valued at fair value at the acquisition date. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IFRS 9 *Financial Instruments*, is measured at fair value with the changes in fair value recognised in the profit or loss in accordance with IFRS 9. Other contingent consideration that is not within the scope of IFRS 9 is measured at fair value at each reporting date with changes in fair value recognised in profit or loss.

Goodwill is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests and any previous interest held over the net identifiable assets acquired and liabilities assumed). If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in profit or loss.

Where goodwill has been allocated to a cash-generating unit (CGU) and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

A contingent liability recognised in a business combination is initially measured at its fair value. Subsequently, it is measured at the higher of the amount that would be recognised in accordance with the requirements for provisions in IAS 37 *Provisions, Contingent Liabilities and Contingent Assets* or the amount initially recognised less (when appropriate) cumulative amortisation recognised in accordance with the requirements for revenue recognition.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5.2 Investment in associates**

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The Group's investment in its associate is accounted for using the equity method. Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment separately.

The consolidated statement of profit or loss reflects the Group's share of the results of operations of the associate. Any change in other comprehensive income (OCI) of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the consolidated statement of profit or loss and represents profit or loss after tax and non-controlling interests in the subsidiaries of the associate.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognises the loss as 'Share of results of associates' in the consolidated statement of profit or loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in consolidated statement of profit or loss.

**2.5.3 Revenue recognition**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has concluded that it is the principal in all of its revenue arrangements since it typically controls the goods or services before transferring them to the customer.

The specific recognition criteria described below must also be met before revenue is recognised.

***Sale of goods***

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the equipment. The normal credit term is 30 to 90 days upon delivery.

In determining the transaction price for the sale of goods, the Group considers the effects of variable consideration, the existence of significant financing components, non-cash consideration and consideration payable to the customer (if any).

***(i) Variable consideration***

If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. The Group has no contracts with a right of return and volume rebates.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5.3 Revenue recognition (continued)**

*Sale of goods (continued)*

*(ii) Significant financing component*

Generally, the Group receives short-term advances from its customers. Using the practical expedient in IFRS 15, the Group does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good to the customer and when the customer pays for that good will be one year or less. The Group does not receive any long-term advances from customers.

*Management fees*

The Group receives fees for providing specific administrative tasks in relation to certain properties under management. These services include formulating marketing strategy, training programmes, feasibility studies and managing hotel. These services represent a single performance obligation comprised of a series of distinct daily services that are substantially the same and have the same pattern of transfer over the contract period. As the benefit to the customer of the services is transferred evenly over the contract period, these fees are recognised as revenue evenly over the period, based on time elapsed.

*Revenue from rendering of services*

Revenue from rendering services is recognised when the performance obligation is satisfied over-time and payment is generally due upon completion of the services and acceptance of the customer. In some contracts, advances are required before the service are rendered.

*Rental income*

The Group earns revenue from acting as a lessor in operating leases which do not transfer substantially all of the risks and rewards incidental to ownership of the leased property.

Rental income arising from operating leases is accounted for on a straight-line basis over the lease term and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are recognised as an expense over the lease term on the same basis as the lease income.

**2.5.4 Taxes**

*Kuwait Foundation for the Advancement of Sciences (KFAS)*

The contribution to KFAS is calculated at 1% of the profit for the year attributable to the Parent Company in accordance with the modified calculation based on the Foundation's Board of Directors' resolution, which states that income from associates and subsidiaries, Board of Directors' remuneration, transfer to statutory reserve should be excluded from profit for the year when determining the contribution.

*National Labour Support Tax*

NLST is calculated at 2.5% of the profit for the year attributable to the Parent Company in accordance with Law No. 19 of 2000 and the Ministry of Finance resolutions No. 24 of 2006.

*Zakat*

Contribution to Zakat is calculated at 1% of the profit for the year attributable to Parent Company in accordance with the Ministry of Finance resolution No. 58/2007 effective from 10 December 2007.

*Taxation on overseas subsidiary*

Income tax on overseas subsidiary represents tax for operations in Egypt and is calculated in accordance with the applicable tax law of these countries.

Income tax assets and liabilities for the current year are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, by the reporting date in the countries where the Group operates and generates taxable income.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5.5 Dividend distribution**

The Group recognises a liability to pay a dividend when the distribution is no longer at the discretion of the Group. As per the Companies Law, a distribution is authorised when it is approved by the shareholders at the AGM. A corresponding amount is recognised directly in equity.

Dividends for the year that are approved after the reporting date are disclosed as an event after the reporting date.

**2.5.6 Cash and cash equivalents**

Cash and cash equivalents in the consolidated statement of financial position comprise cash on hand, non-restricted cash at banks and short-term deposits that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, with original maturities of three months or less.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash on hand, non-restricted cash at banks and short-term deposits, as defined above, as they are considered an integral part of the Group's cash management.

**2.5.7 Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**i) Financial assets**

***Recognition and initial measurement***

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

***Subsequent measurement***

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5.7 Financial instruments (continued)**

*i) Financial assets (continued)*

*a) Financial assets at amortised cost (debt instruments)*

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Group's financial assets at amortised cost includes trade and other receivables.

*b) Financial assets at fair value through OCI (debt instruments)*

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value change recognised in OCI is recycled to profit or loss.

The Group has no debt instruments at fair value through OCI as at the reporting date.

*c) Financial assets designated at fair value through OCI (equity instruments)*

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under IAS 32 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

*c) Financial assets at fair value through profit or loss*

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes certain equity investments which the Group had not irrevocably elected to classify at fair value through OCI. Net gains and losses, including any interest or dividend income, are recognised in the statement profit or loss.

***Derecognition***

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- ▶ The rights to receive cash flows from the asset have expired; or
- ▶ The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5.7 Financial instruments (continued)**

*i) Financial assets (continued)*

**Impairment of financial assets**

The Group recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

*ii) Financial liabilities*

**Initial recognition and measurement**

The Group's financial liabilities include trade and other payables.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings net of directly attributable transaction costs.

**Subsequent measurement**

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- ▶ Financial liabilities at fair value through profit or loss
- ▶ Financial liabilities at amortised cost

The Group has not designated any financial liability as at fair value through profit or loss and financial liabilities at amortised cost is more relevant to the Group.

***Financial liabilities at amortised cost***

***Trade and other payables***

Trade and other payables are recognised for amounts to be paid in the future for services received, whether billed by the supplier or not.

***Derecognition***

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the statement of profit or loss.

**iii) Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount presented in the consolidated statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5.8 Treasury shares**

Treasury shares consist of the Parent Company's own issued shares that have been reacquired by the Group and not yet reissued or cancelled. The treasury shares are accounted for using the cost method. Under this method, the weighted average cost of the shares reacquired is charged in equity. When the treasury shares are reissued, gains are credited to a separate account in equity (the "treasury shares reserve"), which is not distributable. Any realised losses are charged to the same account to the extent of the credit balance in that account. Any excess losses are charged to retained earnings then to the voluntary reserve and statutory reserve. Gains realised subsequently on the sale of treasury shares are first used to offset any previously recorded losses in the order of reserves, retained earnings and the treasury shares reserve account. No cash dividends are paid on these shares. The issue of bonus shares increases the number of treasury shares proportionately and reduces the average cost per share without affecting the total cost of treasury shares.

**2.5.9 Employees' end of service benefits**

The Group provides end of service benefits to all its employees under the Kuwait Labour Law. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment.

Further, with respect to its national employees, the Group also makes contributions to Public Institution for Social Security calculated as a percentage of the employees' salaries. The Group's obligations are limited to these contributions, which are expensed when due.

**2.5.10 Provisions**

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

**2.5.11 Foreign currencies**

The Group's consolidated financial statements are presented in KD, which is also the Parent Company's functional currency. For each entity, the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of a foreign operation, the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

*Transactions and balances*

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of advance consideration.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5.11 Foreign currencies (continued)**

On consolidation, the assets and liabilities of foreign operations are translated at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is reclassified to profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

**2.4.12 Property and equipment**

Property and equipment is stated at cost, net of accumulated depreciation and/or any accumulated impairment losses, if any.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

▶ Buildings	10 to 25 years
▶ Machinery, equipment and furniture	3 to 15 years
▶ Leasehold improvement and decorations	4 to 10 years
▶ Motor vehicles	3 to 8 years

Capital work in progress is stated at cost, net of accumulated impairment losses, if any.

Expenditure incurred to replace a component of an item of property and equipment that is accounted for separately is capitalised and the carrying amount of the component that is replaced is written off. Other subsequent expenditure is capitalised only when it increases future economic benefits of the related item of property and equipment. All other expenditure is recognised as the expense is incurred.

An item of property and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included consolidated statement of profit or loss when the asset is derecognised.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

**2.4.13 Intangible assets**

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

The useful lives of intangible assets are assessed to be either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit or loss in the expense category that is consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the CGU level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.4.13 Intangible assets (continued)**

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss.

Franchise right is amortised over a period of ten years.

The Group made payments to incumbent tenants to take over operating leases of prime locations. The leases may be renewed at little or no cost to the Group. As a result, key money is assessed as having an indefinite useful life. Key money is carried at cost without amortisation but is tested for impairment. Refer to the accounting policy on impairment of non-financial assets.

**2.5.14 Inventories**

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- ▶ Raw materials: purchase cost on weighted average basis
- ▶ Finished goods: cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make sale.

**2.5.15 Impairment of non-financial assets**

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

An impairment loss is recognised whenever the carrying amount of the asset or its cash generating unit exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. An impairment loss is only reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

**2.5.16 Contingencies**

Contingent liabilities are not recognised in the consolidated statement of financial position, but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

Contingent assets are not recognised in the consolidated statement of financial position, but are disclosed when an inflow of economic benefits is probable.

**2.5.17 Segment information**

A segment is a distinguishable component of the Group that engages in business activities from which it earns revenue and incurs costs. The operating segments are used by the management of the Group to allocate resources and assess performance. Operating segments exhibiting similar economic characteristics, product and services, class of customers, distribution methods and nature of regulatory environment where appropriate are aggregated and reported as reportable segments.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5.18 Current versus non-current classification**

The Group presents assets and liabilities in the consolidated statement of financial position based on current/non-current classification. An asset is current when it is:

- ▶ Expected to be realised or intended to be sold or consumed in the normal operating cycle
- ▶ Held primarily for the purpose of trading
- ▶ Expected to be realised within twelve months after the reporting period; or
- ▶ Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- ▶ It is expected to be settled in the normal operating cycle
- ▶ It is held primarily for the purpose of trading
- ▶ It is due to be settled within twelve months after the reporting period; or
- ▶ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

**2.5.19 Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability, or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which the fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 : Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- ▶ Level 2 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- ▶ Level 3 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For financial instruments quoted in an active market, fair value is determined by reference to quoted market prices. Bid prices are used for assets and offer prices are used for liabilities.

**2.5.19 Fair value measurement**

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5.19 Fair value measurement (continued)**

For unquoted financial instruments fair value is determined by reference to the market value of a similar investment, discounted cash flows, other appropriate valuation models or brokers' quotes.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the Level of the fair value hierarchy as explained above.

**3 SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS**

The preparation of the Group's consolidated financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent assets and liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

**3.1 Judgements**

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect in the amounts recognised in the consolidated financial statements:

***Classification of financial assets***

The Group determines the classification of financial assets based on the assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are solely payments of principal and interest on the principal amount outstanding. Refer Note 2.5.7 classification of financial assets for more information.

***Revenue from contracts with customers involving sale of goods***

When recognising revenue in relation to the sale of goods to customers, the key performance obligation of the Group is considered to be the point of delivery of the goods to the customer, as this is deemed to be the time that the customer obtains control of the promised goods and therefore the benefits of unimpeded access.

***Determining the lease term of contracts with renewal and termination options – Group as lessee***

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has the option, under some of its leases to lease the assets for additional terms. The Group applies judgement in evaluating whether it is reasonably certain to exercise the option to renew. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew or to terminate (e.g., a change in business strategy, construction of significant leasehold improvements or significant customisation to the leased asset).

***Going concern***

The management has made an assessment of the Group's ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore, the consolidated financial statements are prepared on a going concern basis.

**3 SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (continued)**

**3.2 Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

***Impairment of associates***

Investment in associates are accounted for under the equity method of accounting for associates, whereby these investments are initially stated at cost, and are adjusted thereafter for the post-acquisition change in the Group's share of the net assets of the associates less any impairment losses. The Group is required to assess, at each reporting date, whether there are indications of impairment. If such indications exist, the management estimates the recoverable amount of the associate in order to determine the extent of the impairment loss (if any). The identification of impairment indicators and determination of the recoverable amounts require management to make significant judgements, estimates and assumptions.

***Impairment of financial assets at amortised cost***

The Group assesses on a forward-looking basis the expected credit losses (ECL) associated with its debt instruments carried at amortised cost. For trade receivables and contract assets, the Group applies a simplified approach in calculating ECL. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECL at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. Actual results may differ from these estimates.

***Fair value measurement***

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case, management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

***Useful lives of depreciable assets***

Management reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technological obsolescence that may change the utility of certain software and IT equipment.

***Impairment of property and equipment and intangible assets***

A decline in the value of property and equipment and intangible assets could have a significant effect on the amounts recognised in the consolidated financial statements. Management assesses the impairment of property and equipment and intangibles whenever events or changes in circumstances indicate that the carrying value may not be recoverable.

Factors that are considered important which could trigger an impairment review include the following:

- ▶ significant decline in the market value beyond that which would be expected from the passage of time or normal use;
- ▶ significant changes in the technology and regulatory environments;
- ▶ evidence from internal reporting which indicates that the economic performance of the asset is, or will be, worse than expected.

***Impairment of inventories***

The provision for impairment of inventories assessment requires a degree of estimation and judgement. The level of the provision is assessed by taking into account the recent sales experience, the ageing of inventories, period of expiry and other factors that affect inventory obsolescence.

***Leases - Estimating the incremental borrowing rate***

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs when available and is required to make certain entity-specific estimates.

Kuwait Hotels Company K.S.C.P. and its Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2019

4 REVENUE FROM CONTRACTS WITH CUSTOMERS

Set out below is the disaggregation of the Group's revenue from contracts with customers:

	<i>For the year ended 31 December 2019</i>		
	<i>Catering KD</i>	<i>Bakery products KD</i>	<i>Total KD</i>
<i>Type of goods or service</i>

	<u>5,297,890</u>	<u>5,223,591</u>

Kuwait Hotels Company K.S.C.P. and its Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2019

6 RENTAL INCOME

	<i>2019</i> <i>KD</i>	<i>2018</i> <i>KD</i>
Rental income	920,690	882,440
Rental expenses	(258,334)	(308,391)
Other property operating expenses	(232,457)	(235,767)
Net rental income	<u>429,899</u>	<u>338,282</u>

This represents rent derived from a leasehold property in the State of Kuwait, namely Al Dubaiya resort, currently utilised by the Group based on an agreement with the Ministry of Finance (MOF), which has legally expired on 22 April 2012 and for which the Parent Company applied for an extension and no final decision is reached by MOF at the authorisation date of these consolidated financial statements. Management believes that the Group is substantially exposed to all the risk and rewards associated with the ownership of the right. Accordingly, rent income derived from the leasehold property is recognised in the consolidated statement of profit or loss.

7 LOSS PER SHARE

Basic loss per share amounts are calculated by dividing the loss for the year attributable to ordinary equity holders of the Parent Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is calculated by dividing the loss attributable to ordinary equity holders of the Parent Company by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares. As there are no dilutive instruments outstanding, basic and diluted loss per share are identical.

	<i>2019</i>	<i>2018</i>
Loss for the year attributable to equity holders of the Parent Company (KD)	(984,132)	(363,582)
Weighted average number of shares outstanding (shares) *	56,433,300	56,433,300
Basic and diluted loss per share (fils)	<u>(17.44)</u>	<u>(6.4)</u>

\* The weighted average number of shares takes into account the weighted average effect of changes in treasury shares during the year.

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of authorisation of these consolidated financial statements.

# Kuwait Hotels Company K.S.C.P. and its Subsidiaries

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2019

### 8 PROPERTY AND EQUIPMENT (continued)

The depreciation included in the consolidated statement of profit or loss is allocated as follows:

	2019 KD	2018 KD
Cost of sales	166,720	171,933
Administrative and selling expenses	282,740	213,037
	<u>449,460</u>	<u>384,970</u>

#### *Fair value disclosure of building on leasehold land*

The Group complies with the real estate valuation procedures set out in Module 11 "Dealing in Securities" of the CMA Executive Bylaws, which require valuations of local real estate properties classified as plant, property and equipment to be determined by at least two independent, registered and accredited real estate appraisers provided that one of them is a local bank and that the lower value is taken into account.

The fair value of the building on leasehold land as at 31 December 2019 is determined based on valuations carried out by the respective appraisers using the market comparison approach amounted to KD 2,461,000.

Significant increases (decreases) in estimated price per square metre in isolation would result in a significantly higher (lower) fair value on a linear basis.

### 9 RIGHT-OF-USE ASSETS AND LEASE LIABILITIES

The Group has lease contracts for various locations and outlets used in its operations. Leases of locations generally have lease terms between five to ten years. The Group's obligations under its leases are secured by the lessor's title to the leased assets. Generally, the Group is restricted from assigning and subleasing the leased assets.

Set out below are the carrying amounts of right-of-use assets recognised and the movements during the year:

	2019 KD
As at 1 January	1,508,691
Depreciation expense	(264,725)
Disposals	(743,273)
As at 31 December	<u>500,693</u>

Set out below are the carrying amounts of lease liabilities and the movements during the year:

	2019 KD
As at 1 January	1,508,691
Accretion of interest	49,698
Disposals	(743,273)
Payments	(303,432)
As at 31 December	<u>511,684</u>
Non-current	397,351
Current	114,333
	<u>511,684</u>

The maturity analysis of lease liabilities are disclosed in Note 23.2.

At 31 December 2018	314,000	-	922,557	1,236,557
Additions	-	15,234	-	15,234
Disposals	(314,000)	-	(504,378)	(818,378)
<b>At 31 December 2019</b>	<b>-</b>	<b>15,234</b>	<b>418,179</b>	<b>433,513</b>
<b>Amortisation and impairment:</b>				
At 1 January 2018 and 31 December 2018	-	-	175,680	175,680
Amortisation	-	1,523	-	1,523
Impairment	-	-	242,499	242,499
<b>At 31 December 2019</b>	<b>-</b>	<b>1,523</b>	<b>418,179</b>	<b>419,702</b>
<b>Net book value:</b>				
At 31 December 2019	-	13,711	-	13,711
At 31 December 2018	314,000	-	746,877	1,060,877

**Key money**

Key money represents the difference between current rents and fair market rent for a similar property without the restrictions, plus an additional premium paid to incumbent tenants to obtain the site ahead of a competitor. The Group has rights to renew the lease in the future and expects to be able to recover at least the original investment from the tenant who takes over the lease when it moves out. The leases may be renewed at little or no cost to the Group. As a result, key money is assessed as having an indefinite useful life.

In 2019, the Group vacated certain locations for which key money previously paid is carried at KD 504,378 for which, a total consideration of KD 194,078 was received from the new tenants. Accordingly, a loss of KD 310,300 was recognised upon derecognition for the year then ended.

The Group performed its annual impairment test in December 2019 and considered the relationship between decreased demands on its locations and the book value, among other factors, when assessing impairment. Based on management's assessment, an impairment loss of KD 242,499 is recorded and presented separately in the consolidated statement of profit or loss for the year then ended.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2019

### 11 INVESTMENT SECURITIES

	<i>2019</i> <i>KD</i>	<i>2018</i> <i>KD</i>
<i>Financial assets at fair value through other comprehensive income:</i>		
Unquoted equity securities	36,945	50,235
<i>Financial assets at fair value profit or loss:</i>		
Unquoted equity securities	38,900	71,400
	<b>75,845</b>	<b>121,635</b>

The hierarchy for determining and disclosing the fair values of financial instruments by valuation techniques is presented in Note 24.

### 12 ACCOUNTS RECEIVABLE AND PREPAYMENTS

	<i>2019</i> <i>KD</i>	<i>2018</i> <i>KD</i>
Trade receivables	2,619,694	2,309,783
Less: Allowance for expected credit losses	(1,013,099)	(976,661)
	<b>1,606,595</b>	<b>1,333,122</b>
Prepayments and other receivables	482,700	545,755
	<b>2,089,295</b>	<b>1,878,877</b>

The net carrying value of trade receivables is considered a reasonable approximation of fair value.

Note 23.1 includes disclosures relating to the credit risk exposures and on analysis relating to the allowance for expected credit losses on the Group's trade receivables. Other classes within accounts receivable do not contain impaired assets.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of receivables mentioned above.

Set out below is the movement in the allowance for expected credit losses of trade receivables:

	<i>2019</i> <i>KD</i>	<i>2018</i> <i>KD</i>
At 1 January	976,661	719,025
Opening loss allowance as at 1 January 2018 - calculated under IFRS 9	-	272,695
Restated opening balance under IFRS 9	976,661	991,720
Allowance for expected credit losses recognised in profit or loss	37,588	-
Write-offs	(1,150)	(15,059)
At 31 December	<b>1,013,099</b>	<b>976,661</b>

# Kuwait Hotels Company K.S.C.P. and its Subsidiaries

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2019

### 13 CASH AND CASH EQUIVALENTS

	2019 KD	2018 KD
Cash at banks and on hand	659,312	726,642
Short-term deposits maturing within three months	804,253	250,000
	<u>1,463,565</u>	<u>976,642</u>

Short-term deposits are made for varying periods between one day and three months, depending on the immediate cash requirements of the Group, and earn interest at an average effective interest rate of 2.625% to 2.875% (2018: 2.625%) per annum.

### 14 SHARE CAPITAL

	<i>Number of shares</i>		<i>Authorised, issued and fully paid</i>	
	2019	2018	2019 KD	2018 KD
Shares of 100 fils each (paid in cash)	<u>57,750,000</u>	<u>57,750,000</u>	<u>5,775,000</u>	<u>5,775,000</u>

### 15 RESERVES

#### Statutory reserve

In accordance with the Companies' Law, and the Parent Company's Memorandum of Incorporation and Articles of Association, a minimum of 10% of the profit for the year before tax and board of directors' remuneration shall be transferred to the statutory reserve based on the recommendation of the Parent Company's board of directors. The annual general assembly of the Parent Company may resolve to discontinue such transfer when the reserve exceeds 50% of the issued share capital. The reserve may only be used to offset losses or enable the payment of a dividend up to 5% of paid-up share capital in years when profit is not sufficient for the payment of such dividend due to absence of distributable reserves. Any amounts deducted from the reserve shall be refunded when the profits in the following years suffice, unless such reserve exceeds 50% of the issued share capital.

#### Voluntary reserve

In accordance with the Companies' Law, and the Parent Company's Memorandum of Incorporation and Articles of Association, a maximum of 10% of the profit for the year before tax and board of directors' remuneration is required to be transferred to the voluntary reserve. Such annual transfers may be discontinued by a resolution of the shareholders' general assembly upon a recommendation by the Board of Directors. There are no restrictions on the distribution of this reserve.

### 16 TREASURY SHARES

	2019 KD	2018 KD
Number of shares	1,316,700	1,316,700
Percentage of issued shares	2.33%	2.33%
Cost (KD)	223,952	223,952
Market value (KD)	131,670	171,171

Reserves equivalent to the cost of the treasury shares held are not available for distribution during the holding period of such shares as per CMA guidelines.

### 17 OTHER RESERVE

Other reserve represents the effect of changes in ownership interests in subsidiaries without loss of control.

Kuwait Hotels Company K.S.C.P. and its Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2019

**18 EMPLOYEES' END OF SERVICE BENEFITS**

Set out below is the movement in the provision for employees' end of service benefits:

	<i>2019</i> <i>KD</i>	<i>2018</i> <i>KD</i>
At 1 January	<b>790,738</b>	878,052
Charge for the year	<b>195,797</b>	165,436
Payments	<b>(77,766)</b>	(252,750)
At 31 December	<b>908,769</b>	790,738

**19 TRADE AND OTHER PAYABLES**

	<i>2019</i> <i>KD</i>	<i>2018</i> <i>KD</i>
Trade payables	<b>606,732</b>	747,981
Unearned revenue	<b>522,482</b>	514,060
Accruals and other liabilities	<b>858,668</b>	834,811
	<b>1,987,882</b>	2,096,852

Terms and conditions of the above financial liabilities are:

- ▶ Trade payables are non-interest bearing and are normally settled on 60-day terms.
- ▶ Other payables are non-interest bearing and have average term of six months

For explanation on the Group's liquidity risk management process, refer to Note 23.2

**20 SEGMENT INFORMATION**

For management purposes, the Group is organised into three main business segments based on internal reporting provided to the chief operating decision maker:

- ▶ **Hotel Management:** Owning, operating and managing of hotels
- ▶ **Catering and manpower supply services:** Providing catering and manpower supply services to governmental and non-governmental institutions.
- ▶ **Information technology services:** Information technology administrative support

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on return on investments.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2019

### 21 CONTINGENCIES

At the reporting date, the Group has provided bank guarantees to its customers for the performance for certain contracts of KD 1,832,764 (2018: KD 1,486,539). No material liability is expected to arise.

### 22 RELATED PARTY DISCLOSURES

Related parties represent associates, major shareholders, directors and key management personnel of the Group and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Parent Company's management.

Transactions with related parties included in the consolidated statement of profit or loss are as follows:

	<i>Major shareholder KD</i>	<i>Other affiliates KD</i>	<i>2019 KD</i>	<i>2018 KD</i>
Management fees	225,333	30,820	256,153	362,472
Cost of sales	(105,600)	-	(105,600)	(91,865)
Administrative expenses	-	(82,415)	(82,415)	(86,993)

Investment in equity securities amounting to KD 88,900 (2018: KD 88,900) are managed by a related party.

#### Key management compensation

Key management personnel comprise of the Board of Directors and key member of the management having authority and responsibility for planning, directing and controlling the activities of the Group. The aggregate value of transactions and outstanding balances relating to key management personnel were as follows:

	<i>Transaction values for the year ended 31 December</i>		<i>Balance outstanding as at 31 December</i>	
	<i>2019 KD</i>	<i>2018 KD</i>	<i>2019 KD</i>	<i>2018 KD</i>
Salaries and short-term employee benefits	224,989	189,456	40,999	36,256
End of services benefits	19,830	18,216	212,070	190,330
	<u>244,819</u>	<u>207,672</u>	<u>253,069</u>	<u>226,586</u>

The Board of Directors of the Parent Company has not proposed a directors' remuneration for the year ended 31 December 2019 (2018: Nil). This proposal is subject to the approval of the shareholders at the AGM of the Parent Company.

### 23 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES

Risk is inherent in the Group's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Group's continuing profitability and each individual within the Group is accountable for the risk exposures relating to his or her responsibilities. The Group is exposed to credit risk, liquidity risk and market risk which is further sub-divided into interest rate risk, foreign currency risk and equity price risk. The Group's policy is to monitor those business risks through the Group's strategic planning process.

The Group's principal financial liabilities comprise of accounts payable and accruals. The main purpose of these financial liabilities is to raise finance for the Group's operations. The Group has various financial assets such as accounts receivable and cash and cash equivalents which are directly from its operations.

The management of the Parent Company is ultimately responsible for the overall risk management approach and for approving the risk strategy. The management reviews and agrees policies for managing each of these risks which are summarised below:

# Kuwait Hotels Company K.S.C.P. and its Subsidiaries

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2019

### 23 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

#### 23.1 Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities primarily trade and other receivables, and from its financing activities, including deposits with banks.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets as follows:

	2019 KD	2018 KD
Balances with banks and short-term deposits	1,462,202	975,452
Accounts receivable	1,606,595	1,333,122
	<u>3,068,797</u>	<u>2,308,574</u>

#### *Collateral and other credit enhancements*

The Group does not have any collateral or other credit enhancements against any of the financial assets at 31 December 2019 and 31 December 2018.

#### *Concentration of maximum exposure to credit risk*

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Group's performance to developments affecting a particular industry or geographic location. The Group's concentration of credit risk pertains to receivable balances from the Group's 5 largest customers which account for 44% as at 31 December 2019 (2018: 63%) of outstanding trade receivables at the reporting date.

#### *Balances with banks and short-term deposits*

Credit risk from balances with banks and financial institutions is limited because the counterparties are reputable financial institutions with appropriate credit-ratings assigned by international credit-rating agencies. Further, the principal amounts of deposits in local banks (including saving accounts and current accounts) are guaranteed by the Central Bank of Kuwait in accordance with Law No. 30 of 2008 Concerning Guarantee of Deposits at Local Banks in the State of Kuwait which came into effect on 3 November 2008.

Impairment on cash and short-term deposits has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The Group considers that its cash and short-term deposits have low credit risk based on the external credit ratings of the counterparties.

#### *Trade receivables*

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate. The Group limits its exposure to credit risk from accounts receivables by establishing a maximum payment period of three months for individual and corporate customers respectively.

Majority of the Group's customers have been transacting with the Group for over three years, and none of these customers' balances have been written off or are credit-impaired at the reporting date. In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are an individual or a legal entity, whether they are a corporate or government entities, trading history with the Group and existence of previous financial difficulties.

At 31 December 2019, the Group had two customers (2018: four) that owed it more than KD 50,000 each and accounted for approximately 9% (2018: 18%) of all the receivables outstanding. There were three customers (2018: three customers) with balances greater than KD 100,000 accounting for just over 52% (2018: 47%) of the total amounts of receivable.

# Kuwait Hotels Company K.S.C.P. and its Subsidiaries

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2019

### 23 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

#### 23.1 Credit risk (continued)

##### Trade receivables (continued)

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written-off if past due for more than one year and are not subject to enforcement activity. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed below. The Group does not hold collateral as security.

Set out below is the information about the credit risk exposure on the Group's trade receivables using a provision matrix:

	Current KD	Days past due			Total KD
		<90 days KD	91-180 days KD	>180 days KD	
<b>31 December 2019</b>					
Expected credit loss rate	-	10.97%	27.30%	80.99%	38.74%
Total gross carrying amount at default	972,854	424,371	43,837	1,178,632	2,619,694
Expected credit loss	-	46,554	11,968	954,577	1,013,099
	Current KD	Days past due			Total KD
		<90 days KD	91-180 days KD	>180 days KD	
<b>31 December 2018</b>					
Expected credit loss rate	-	8.76%	65%	62%	42.62%
Total gross carrying amount at default	707,696	315,263	269,589	1,017,235	2,309,783
Expected credit loss	-	14,544	108,205	853,912	976,661

#### 23.2 Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in raising funds to meet commitments associated with financial instruments. To manage this risk, the Group periodically assesses the financial viability of customers and invests in bank deposits that are readily realisable. The maturity profile is monitored by management to ensure adequate liquidity is maintained.

The Group limits its liquidity risk by ensuring bank facilities are available. The Group's terms of sales require amounts to be paid within 30 days of the date of sale. Trade payables are normally settled within 60 days of the date of purchase.

# Kuwait Hotels Company K.S.C.P. and its Subsidiaries

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2019

### 23 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

#### 23.2 Liquidity risk (continued)

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments:

	<i>Less than 3 months KD</i>	<i>3 – 12 months KD</i>	<i>More than 1 year KD</i>	<i>Total KD</i>
<b>31 December 2019</b>				
Lease liabilities	33,831	101,493	451,068	586,392
Trade and other payables*	606,732	858,668	-	1,465,400
Total liabilities	<u>640,563</u>	<u>960,161</u>	<u>451,068</u>	<u>2,051,792</u>
<b>31 December 2018</b>				
Trade and other payables*	633,157	949,635	-	1,582,792
Total liabilities	<u>633,157</u>	<u>949,635</u>	<u>-</u>	<u>1,582,792</u>

\* excluding unearned revenue

#### 23.3 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise of interest rate risk, foreign currency risk, and equity price risk.

##### 23.3.1 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Financial instruments, which potentially subject the Fund to interest rate risk, consist principally of cash and short-term deposits. The Group's terms deposits are short-term in nature and yield interest at commercial rates. Therefore, the Group believes there is minimal risk of significant losses due to interest rate fluctuations.

As at the reporting date, the Group does not hold interest bearing liabilities.

##### 23.3.2 Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Group is no significant foreign currency denominated net assets, and is therefore not exposed to foreign currency risk.

##### 23.3.3 Equity price risk

The Group's equity investments are susceptible to market price risk arising from uncertainties about future values of the investment securities.

The Group holds strategic equity investments in private entities, which complement the Group's operations. Management believes that the exposure to market price risk from this activity is acceptable in the Group's circumstances.

At the reporting date, the exposure to unquoted equity securities at fair value was KD 75,845. Sensitivity analyses of these investments have been provided in Note 24

# Kuwait Hotels Company K.S.C.P. and its Subsidiaries

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2019

### 24 FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in orderly transactions between market participants at the measurement date.

#### Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair values of its assets and liabilities by valuation technique:

- ▶ Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- ▶ Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- ▶ Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The management assessed that the fair values of cash and short-term deposits, trade receivables, trade payables and other current liabilities approximate their carrying amounts as these are either of short-term maturity (no longer than twelve months) or re-priced immediately based on market movement in interest rates. For amounts due from (to) related parties that have no specified repayment dates and that are receivable (payable) on demand, management assessed that the fair value is not less than their face value.

The Group's financial assets measured at fair value represent unquoted equity investments classified as Level 3.

#### Valuation techniques

The Group invests in private equity companies that are not quoted in an active market. Transactions in such investments do not occur on a regular basis. The Group uses a market-based valuation technique for these positions. The Group's investment manager determines comparable public companies (peers) based on industry, size, leverage and strategy, and calculates an appropriate trading multiple for each comparable company identified. The multiple is then discounted for considerations such as illiquidity and size differences between the comparable companies based on Company specific facts and circumstances.

#### Reconciliation of Level 3 fair values

The following table shows a reconciliation of all movements in the fair value of items categorised within Level 3 between the beginning and the end of the reporting period:

	<i>Non-listed equity investments</i>		
	<i>Financial assets at FVOCI</i> <i>KD</i>	<i>Financial assets at FVTPL</i> <i>KD</i>	<i>Total</i> <i>KD</i>
<b>2019</b>			
As at 1 January	50,235	71,400	121,635
Remeasurement recognised	(13,290)	(32,500)	(45,790)
As at 31 December	<u>36,945</u>	<u>38,900</u>	<u>75,845</u>
<b>2018</b>			
As at 1 January	93,235	71,400	164,635
Remeasurement recognised in OCI	(43,000)	-	(43,000)
As at 31 December	<u>50,235</u>	<u>71,400</u>	<u>121,635</u>

#### Description of significant unobservable inputs to valuation and sensitivity analysis to significant changes in unobservable inputs within Level 3 hierarchy

The significant unobservable inputs used in the fair value measurements categorised within Level 3 of the fair value hierarchy include discount for lack of marketability (DLOM) that the Group has determined that market participants would take into account when pricing the investments. The Group has also performed a sensitivity analysis by varying these inputs by 5%. Based on such analysis, no significant changes in fair values were noted.

**25 CAPITAL MANAGEMENT**

The primary objective of the Group's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximise shareholder value.

The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholder or issue new shares. No changes were made in the objectives, policies or processes during the years ended 31 December 2019 and 2018. Capital represents equity attributable to equity holders of the Parent Company and is measured at KD 4,009,503 as at 31 December 2019 (2018: KD 4,997,294).

**26 SUBSEQUENT EVENT**

Subsequent to the reporting date, the coronavirus (COVID-19) outbreak has resulted in significant drop in demand for goods and services and supply chain disruptions. There is also high volatility in the financial markets worldwide. The existing and anticipated effects of the outbreak of COVID-19 on the global economy and financial markets is expected to continue to evolve. The scale and duration of these developments remain uncertain at this stage but could negatively impact the Group's financial performance, cash flows and financial position. Given the ongoing economic uncertainty, a reliable estimate of the impact cannot be made at the date of authorisation of these consolidated financial statements
