

**KUWAIT HOTELS COMPANY K.S.C.P.  
AND ITS SUBSIDIARIES**

**CONSOLIDATED FINANCIAL STATEMENTS**

**31 DECEMBER 2021**

## INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF KUWAIT HOTELS COMPANY K.S.C.P.

### Report on the Audit of the Consolidated Financial Statements

#### *Opinion*

We have audited the consolidated financial statements of Kuwait Hotels Company K.S.C.P. (the "Parent Company") and its subsidiaries (collectively, the "Group"), which comprise the consolidated statement of financial position as at 31 December 2021, and the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2021, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

#### *Basis for Opinion*

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Key Audit Matters*

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each key audit matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

**INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF KUWAIT  
HOTELS COMPANY K.S.C.P. (continued)**

**Report on the Audit of the Consolidated Financial Statements (continued)**

***Key Audit Matters (continued)***

***Expected credit losses (ECL) for trade receivables***

As at 31 December 2021, trade receivables amounted to KD 643,440 representing 9% of total assets of the Group.

The Group determines the expected credit losses on trade receivables by using a provision matrix that is based on historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. Trade receivables have been grouped based on shared credit risk characteristics and days past due.

Due to the significance of trade receivables and the complexity involved in the ECL calculation, this was considered as a key audit matter.

Our audit procedures included, among others, the following:

- We assessed the reasonableness of the assumptions used in the ECL calculation by comparing them with historical data adjusted for current market conditions and forward-looking information in view of the ongoing Covid-19 pandemic;
- We performed substantive procedures to test, on a sample basis, the completeness and accuracy of the information included in the debtors' ageing report;
- Further, in order to evaluate the appropriateness of management judgements, we verified on a sample basis, the customer's historical payment patterns and whether any post year-end payments had been received up to the date of completing our audit procedures.; and
- We also considered the adequacy of the Group's disclosures relating to the ECL, management's assessment of the credit risk and their responses to such risks in Note 22 to the consolidated financial statements.

## **INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF KUWAIT HOTELS COMPANY K.S.C.P. (continued)**

### **Report on the Audit of the Consolidated Financial Statements (continued)**

#### ***Other information included in the Group's 2021 Annual Report***

Management is responsible for the other information. Other information consists of the information included in the Group's 2021 Annual Report, other than the consolidated financial statements and our auditor's report thereon. We obtained the report of the Parent Company's Board of Directors, prior to the date of our auditor's report, and we expect to obtain the remaining sections of the Annual Report after the date of our auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### ***Responsibilities of Management and those Charged with Governance for the Consolidated Financial Statements***

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

#### ***Auditor's Responsibilities for the Audit of the Consolidated Financial Statements***

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

## INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF KUWAIT HOTELS COMPANY K.S.C.P. (continued)

### Report on the Audit of the Consolidated Financial Statements (continued)

#### *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)*

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- 1 Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 1 Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 1 Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 1 Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- 1 Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 1 Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

## INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF KUWAIT HOTELS COMPANY K.S.C.P. (continued)

### Report on the Audit of the Consolidated Financial Statements (continued)

#### *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)*

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

Furthermore, in our opinion proper books of account have been kept by the Parent Company and the consolidated financial statements, together with the contents of the report of the Parent Company's Board of Directors relating to these consolidated financial statements, are in accordance therewith. We further report that, we obtained all the information and explanations that we required for the purpose of our audit and that the consolidated financial statements incorporate all information that is required by the Companies Law No. 1 of 2016 as amended, and its executive regulations as amended or by the Parent Company's Memorandum of Incorporation and Articles of Association, that an inventory was duly carried out and that, to the best of our knowledge and belief, no violations of the Companies Law No. 1 of 2016, as amended, and its executive regulations, as amended, or of the Parent Company's Memorandum of Incorporation and Articles of Association have occurred during the year ended 31 December 2021 that might have had a material effect on the business of the Parent Company or on its financial position.

We further report that, during the course of our audit, to the best of our knowledge and belief, we have not become aware of any violations of the provisions of Law No.7 of 2010, concerning the Capital Markets Authority, and its related regulations during the year ended 31 December 2021 that might have had a material effect on the business of the Parent Company or on its financial position.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2021

### 1 CORPORATE AND GROUP INFORMATION (continued)

#### 1.2 GROUP INFORMATION (continued)

##### b) Associates

Set out below are the associates of the Group as at 31 December:

Name	Country of incorporation	% equity interest		Principal activities
		2021	2020	
Abu Navas for Tourism and Services	Tunisia	50%	50%	Travel and tourism related services.
Caf Café Company W.L.L.	Kuwait	50%	50%	Catering services
Milk Box Catering Company W.L.L.	Kuwait	50%	-	Catering services

### 2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

#### 2.1 BASIS OF PREPARATION

The consolidated financial statements have been prepared on a historical cost basis, except for investment securities that have been measured at fair value.

The consolidated financial statements are presented in Kuwaiti Dinars (KD), which is also the functional currency of the Parent Company.

The consolidated financial statements of the Group have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

The consolidated financial statements provide comparative information in respect of the previous period. Certain comparative information has been reclassified and re-presented to conform to the classification in the current period. Such reclassification has been made to improve the quality of information presented. The reclassifications had no impact on the consolidated statement of profit or loss and other comprehensive income and statement of changes in equity as previously reported.

#### 2.2 BASIS OF CONSOLIDATION

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries as at 31 December 2021. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights results in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangements with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

## 2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.2 BASIS OF CONSOLIDATION (continued)

Profit or loss and each component of other comprehensive income are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, non-controlling interests and other components of equity, while any resultant gain or loss is recognised in profit or loss. Any investment retained is recognised at fair value.

### 2.3 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

#### New and amended standards and interpretations

The Group applied for the first-time certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2021 (unless otherwise stated). The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

#### Interest Rate Benchmark Reform – Phase 2: Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16

The amendments provide temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR). The amendments include the following practical expedients:

- A practical expedient to require contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest
- Permit changes required by IBOR reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued
- Provide temporary relief to entities from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component

These amendments had no impact on the consolidated financial statements of the Group. The Group intends to use the practical expedients in future periods if they become applicable.

### 2.4 STANDARDS ISSUED BUT NOT YET EFFECTIVE

Standards issued but not yet effective up to the date of issuance of the Group's financial statements are listed below. The Group intends to adopt those standards when they become effective. However, the Group expects no significant impact from the adoption of the amendments on its financial position or performance.

#### Amendments to IAS 1: Classification of Liabilities as Current or Non-current

In January 2020, the IASB issued amendments to paragraphs 69 to 76 of IAS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and must be applied retrospectively. The Group is currently assessing the impact the amendments will have on current practice.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

2.4 STANDARDS ISSUED BUT NOT YET EFFECTIVE (continued)

**Reference to the Conceptual Framework – Amendments to IFRS 3**

In May 2020, the IASB issued Amendments to IFRS 3 *Business Combinations - Reference to the Conceptual Framework*. The amendments are intended to replace a reference to the *Framework for the Preparation and Presentation of Financial Statements*, issued in 1989, with a reference to the *Conceptual Framework for Financial Reporting* issued in March 2018 without significantly changing its requirements.

The Board also added an exception to the recognition principle of IFRS 3 to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of IAS 37 or IFRIC 21 Levies, if incurred separately.

At the same time, the Board decided to clarify existing guidance in IFRS 3 for contingent assets that would not be affected by replacing the reference to the Framework for the Preparation and Presentation of Financial Statements.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022 and apply prospectively.

The amendments are not expected to have a material impact on the Group.

**Property, Plant and Equipment: Proceeds before Intended Use – Amendments to IAS 16**

In May 2020, the IASB issued Property, Plant and Equipment — Proceeds before Intended Use, which prohibits entities from deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendment is effective for annual reporting periods beginning on or after 1 January 2022 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment.

The amendments are not expected to have a material impact on the Group.

**IFRS 9 Financial Instruments – Fees in the '10 per cent' test for derecognition of financial liabilities**

As part of its 2018-2020 annual improvements to IFRS standards process the IASB issued amendment to IFRS 9. The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received by the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The amendment is effective for annual reporting periods beginning on or after 1 January 2022 with earlier adoption permitted. The Group will apply the amendments to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The amendments are not expected to have a material impact on the Group.

**Definition of Accounting Estimates - Amendments to IAS 8**

In February 2021, the IASB issued amendments to IAS 8, in which it introduces a definition of 'accounting estimates'. The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, they clarify how entities use measurement techniques and inputs to develop accounting estimates.

The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. Earlier application is permitted as long as this fact is disclosed.

The amendments are not expected to have a material impact on the Group.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

2.4 STANDARDS ISSUED BUT NOT YET EFFECTIVE (continued)

**Disclosure of Accounting Policies - Amendments to IAS 1 and IFRS Practice Statement 2**

In February 2021, the IASB issued amendments to IAS 1 and IFRS Practice Statement 2 *Making Materiality Judgements*, in which it provides guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments to IAS 1 are applicable for annual periods beginning on or after 1 January 2023 with earlier application permitted. Since the amendments to the Practice Statement 2 provide non-mandatory guidance on the application of the definition of material to accounting policy information, an effective date for these amendments is not necessary.

The Group is currently assessing the impact of the amendments to determine the impact they will have on the Group's accounting policy disclosures.

2.5 SIGNIFICANT ACCOUNTING POLICIES

**2.5.1 Business combinations and acquisition of non-controlling interests**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Contingent consideration, resulting from business combinations, is valued at fair value at the acquisition date. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IFRS 9 *Financial Instruments*, is measured at fair value with the changes in fair value recognised in the profit or loss in accordance with IFRS 9. Other contingent consideration that is not within the scope of IFRS 9 is measured at fair value at each reporting date with changes in fair value recognised in profit or loss.

Goodwill is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests and any previous interest held over the net identifiable assets acquired and liabilities assumed). If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in profit or loss.

Where goodwill has been allocated to a cash-generating unit (CGU) and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

A contingent liability recognised in a business combination is initially measured at its fair value. Subsequently, it is measured at the higher of the amount that would be recognised in accordance with the requirements for provisions in IAS 37 *Provisions, Contingent Liabilities and Contingent Assets* or the amount initially recognised less (when appropriate) cumulative amortisation recognised in accordance with the requirements for revenue recognition.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5.2 Investment in associates**

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries. The Group's investment in its associate are accounted for using the equity method.

Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment separately.

The statement of profit or loss reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the statement of profit or loss outside operating profit and represents profit or loss after tax and non-controlling interests in the subsidiaries of the associate.

The financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

**2.5.3 Revenue recognition**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group has concluded that it is the principal in all of its revenue arrangements since it typically controls the goods or services before transferring them to the customer.

The specific recognition criteria described below must also be met before revenue is recognised.

*Sale of goods*

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the equipment. The normal credit term is 30 to 90 days upon delivery.

In determining the transaction price for the sale of goods, the Group considers the effects of variable consideration, the existence of significant financing components, non-cash consideration and consideration payable to the customer (if any).

*(i) Variable consideration*

If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. The Group has no contracts with a right of return and volume rebates.

*(ii) Significant financing component*

Generally, the Group receives short-term advances from its customers. Using the practical expedient in IFRS 15, the Group does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good to the customer and when the customer pays for that good will be one year or less. The Group does not receive any long-term advances from customers.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5.3 Revenue recognition (continued)

*Management fees*

The Group receives fees for providing specific administrative tasks in relation to certain properties under management. These services include formulating marketing strategy, training programmes, feasibility studies and managing hotel. These services represent a single performance obligation comprised of a series of distinct daily services that are substantially the same and have the same pattern of transfer over the contract period. As the benefit to the customer of the services is transferred evenly over the contract period, these fees are recognised as revenue evenly over the period, based on time elapsed.

*Revenue from rendering of services*

Revenue from rendering services is recognised when the performance obligation is satisfied over-time and payment is generally due upon completion of the services and acceptance of the customer. In some contracts, advances are required before the service are rendered.

*Rental income*

The Group earns revenue from acting as a lessor in operating leases which do not transfer substantially all of the risks and rewards incidental to ownership of the leased property.

Rental income arising from operating leases is accounted for on a straight-line basis over the lease term and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are recognised as an expense over the lease term on the same basis as the lease income.

2.5.4 Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

When the Group receives grants of non-monetary assets, the asset and the grant are recorded at nominal amounts and released to profit or loss over the expected useful life of the asset, based on the pattern of consumption of the benefits of the underlying asset by equal annual instalments.

2.5.5 Taxes

*Kuwait Foundation for the Advancement of Sciences (KFAS)*

The contribution to KFAS is calculated at 1% of the profit for the year attributable to the Parent Company in accordance with the modified calculation based on the Foundation's Board of Directors' resolution, which states that income from associates and subsidiaries, Board of Directors' remuneration, transfer to statutory reserve should be excluded from profit for the year when determining the contribution.

*National Labour Support Tax*

NLST is calculated at 2.5% of the profit for the year attributable to the Parent Company in accordance with Law No. 19 of 2000 and the Ministry of Finance resolutions No. 24 of 2006.

*Zakat*

Contribution to Zakat is calculated at 1% of the profit for the year attributable to Parent Company in accordance with the Ministry of Finance resolution No. 58/2007 effective from 10 December 2007.

*Taxation on overseas subsidiary*

Income tax on overseas subsidiary represents tax for operations in Egypt and is calculated in accordance with the applicable tax law of these countries.

Income tax assets and liabilities for the current year are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, by the reporting date in the countries where the Group operates and generates taxable income.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5.6 Dividend distribution

The Group recognises a liability to pay a dividend when the distribution is no longer at the discretion of the Group. As per the Companies Law, a distribution is authorised when it is approved by the shareholders at the AGM. A corresponding amount is recognised directly in equity.

Dividends for the year that are approved after the reporting date are disclosed as an event after the reporting date.

2.5.7 Cash and cash equivalents

Cash and cash equivalents in the consolidated statement of financial position comprise cash on hand, non-restricted cash at banks and short-term deposits that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, with original maturities of three months or less.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash on hand, non-restricted cash at banks and short-term deposits, as defined above, as they are considered an integral part of the Group's cash management.

2.5.8 Financial instruments - initial recognition and subsequent measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

j) *Financial assets*

**Initial recognition and measurement**

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

**Subsequent measurement**

For purposes of subsequent measurement, financial assets are classified in four categories:

Financial assets at amortised cost (debt instruments)

Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)

Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)

Financial assets at fair value through profit or loss

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5.8 Financial instruments – initial recognition and subsequent measurement (continued)**

*i) Financial assets (continued)*

**Subsequent measurement (continued)**

*a) Financial assets at amortised cost (debt instruments)*

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Group's financial assets at amortised cost includes trade and other receivables and amounts due from related parties.

*b) Financial assets at fair value through OCI (debt instruments)*

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value change recognised in OCI is recycled to profit or loss.

The Group has no debt instruments at fair value through OCI as at the reporting date.

*c) Financial assets designated at fair value through OCI (equity instruments)*

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under IAS 32 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

*d) Financial assets at fair value through profit or loss*

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes certain equity investments which the Group had not irrevocably elected to classify at fair value through OCI. Dividends on equity investments are recognised as other income in the statement of profit or loss when the right of payment has been established.

**Derecognition**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

The rights to receive cash flows from the asset have expired; or

The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Kuwait Hotels Company K.S.C.P. and its Subsidiaries  
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2021

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5.8 Financial instruments – initial recognition and subsequent measurement (continued)

i) *Financial assets (continued)*

**Impairment of financial assets**

The Group recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

ii) *Financial liabilities*

**Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

The Group's financial liabilities include trade and other payables and amount due to related parties.

All financial liabilities are recognised initially at fair value and, in the case of accounts payable, net of directly attributable transaction costs. Refer to the accounting policy on leases for the initial recognition and measurement of lease liabilities, as this is not in the scope of IFRS 9.

**Subsequent measurement**

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortised cost

The Group has not designated any financial liability as at fair value through profit or loss and financial liabilities at amortised cost is more relevant to the Group.

***Financial liabilities at amortised cost***

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

***Trade and other payables***

Trade and other payables are recognised for amounts to be paid in the future for services received, whether billed by the supplier or not.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5.8 Financial instruments – initial recognition and subsequent measurement (continued)

ii) *Financial liabilities (continued)*

**Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the statement of profit or loss.

ii) *Offsetting of financial instruments*

Financial assets and financial liabilities are offset and the net amount presented in the consolidated statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

2.5.9 Treasury shares

Treasury shares consist of the Parent Company's own issued shares that have been reacquired by the Group and not yet reissued or cancelled. The treasury shares are accounted for using the cost method. Under this method, the weighted average cost of the shares reacquired is charged in equity. When the treasury shares are reissued, gains are credited to a separate account in equity (the "treasury shares reserve"), which is not distributable. Any realised losses are charged to the same account to the extent of the credit balance in that account. Any excess losses are charged to retained earnings then to the voluntary reserve and statutory reserve. Gains realised subsequently on the sale of treasury shares are first used to offset any previously recorded losses in the order of reserves, retained earnings and the treasury shares reserve account. No cash dividends are paid on these shares. The issue of bonus shares increases the number of treasury shares proportionately and reduces the average cost per share without affecting the total cost of treasury shares.

2.5.10 Employees' end of service benefits

The Group provides end of service benefits to all its employees under the Kuwait Labour Law. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment.

Further, with respect to its national employees, the Group also makes contributions to the Public Institution for Social Security calculated as a percentage of the employees' salaries. The Group's obligations are limited to these contributions, which are expensed when due.

2.5.11 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the consolidated statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.5.12 Foreign currencies

The Group's consolidated financial statements are presented in KD, which is also the Parent Company's functional currency. For each entity, the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency. The Group uses the direct method of consolidation and on disposal of a foreign operation, the gain or loss that is reclassified to profit or loss reflects the amount that arises from using this method.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)****2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)****2.5.12 Foreign currencies (continued)***Transactions and balances*

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI) or profit or loss are also recognised in OCI or profit or loss, respectively).

In determining the spot exchange rate to use on initial recognition of the related asset, expense or income (or part of it) on the derecognition of a non-monetary asset or non-monetary liability relating to advance consideration, the date of the transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of advance consideration.

On consolidation, the assets and liabilities of foreign operations are translated at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is reclassified to profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition are treated as assets and liabilities of the foreign operation and translated at the spot rate of exchange at the reporting date.

**2.5.13 Property and equipment**

Property and equipment is stated at cost less accumulated depreciation and any impairment in value.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

Buildings on leasehold land	10 to 25 years
Machinery, equipment and furniture	3 to 15 years
Leasehold improvements and decorations	4 to 10 years
Motor vehicles	3 to 8 years

When significant parts of property and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repairs and maintenance costs are recognised in profit or loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

An item of property and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of profit or loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5.14 Inventories**

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw materials: purchase cost on weighted average basis

Finished goods: cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make sale.

**2.5.15 Impairment of non-financial assets**

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

An impairment loss is recognised whenever the carrying amount of the asset or its cash generating unit exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. An impairment loss is only reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

**2.5.16 Contingencies**

Contingent liabilities are not recognised in the consolidated statement of financial position, but are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

Contingent assets are not recognised in the consolidated statement of financial position, but are disclosed when an inflow of economic benefits is probable.

**2.5.17 Segment information**

A segment is a distinguishable component of the Group that engages in business activities from which it earns revenue and incurs costs. The operating segments are used by the management of the Group to allocate resources and assess performance. Operating segments exhibiting similar economic characteristics, product and services, class of customers, distribution methods and nature of regulatory environment where appropriate are aggregated and reported as reportable segments.

**2.5.18 Current versus non-current classification**

The Group presents assets and liabilities in the consolidated statement of financial position based on current/non-current classification. An asset is current when it is:

Expected to be realised or intended to be sold or consumed in the normal operating cycle

Held primarily for the purpose of trading

Expected to be realised within twelve months after the reporting period; or

Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

Kuwait Hotels Company K.S.C.P. and its Subsidiaries  
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
As at and for the year ended 31 December 2021

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5.18 Current versus non-current classification (continued)

A liability is current when:

- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

2.5.19 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which the fair value is measured or disclosed in the consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 : Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For financial instruments quoted in an active market, fair value is determined by reference to quoted market prices. Bid prices are used for assets and offer prices are used for liabilities.

For unquoted financial instruments fair value is determined by reference to the market value of a similar investment, discounted cash flows, other appropriate valuation models or brokers' quotes.

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the Level of the fair value hierarchy as explained above.

2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5.20 Events after the reporting period

If the Group receives information after the reporting period, but prior to the date of authorisation for issue, about conditions that existed at the end of the reporting period, the Group will assess if the information affects the amounts that it recognises in the Group's consolidated financial statements. The Group will adjust the amounts recognised in its consolidated financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in the light of the new information. For non-adjusting events after the reporting period, the Group will not change the amounts recognised in its consolidated financial statements but will disclose the nature of the non-adjusting event and an estimate of its financial effect, or a statement that such an estimate cannot be made, if applicable.

2.5.21 Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

*Group as a lessee*

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

*Right-of-use assets*

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any re-measurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term of assets.

Right-of-use assets are subject to impairment. Refer to the accounting policies in section 2.5.16 *Impairment of non-financial assets*

*Lease liabilities*

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

*Short term leases and leases of low value assets*

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

**2 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5 SIGNIFICANT ACCOUNTING POLICIES (continued)**

**2.5.21 Leases (continued)**

*Group as a lessor*

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease term and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

Contingent rents are recognised as revenue in the period in which they are earned.

**2.5.22 Investment properties**

Investment properties are measured initially at cost, including transaction costs. The carrying amount includes the cost of replacing part of existing investment properties at the time that cost is incurred if the recognition criteria are met; and excludes the costs of day to day servicing of an investment property. Subsequent to initial recognition, investment properties are stated at cost less depreciation and impairment, if any.

Investment properties are depreciated as follows:

Building	15 years
----------	----------

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in the consolidated statement of profit or loss in the period of derecognition.

Transfers are made to or from investment properties only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property and equipment up to the date of change in use.

**3 SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS**

The preparation of the Group's consolidated financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent assets and liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

**3.1 Judgements**

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect in the amounts recognised in the consolidated financial statements:

*Classification of financial assets*

The Group determines the classification of financial assets based on the assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are solely payments of principal and interest on the principal amount outstanding. Refer Note 2.5.8 classification of financial assets for more information.

*Revenue from contracts with customers involving sale of goods*

When recognising revenue in relation to the sale of goods to customers, the key performance obligation of the Group is considered to be the point of delivery of the goods to the customer, as this is deemed to be the time that the customer obtains control of the promised goods and therefore the benefits of unimpeded access.

*Going concern*

The management has made an assessment of the Group's ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore, the consolidated financial statements are prepared on a going concern basis.

3 SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS (continued)

3.2 Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

*Provision for expected credit losses of trade and other receivables*

The Group assesses, on a forward-looking basis, the ECLs associated with its debt instruments carried at amortised cost. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

For trade receivables, the Group applies a simplified approach in calculating ECL. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECL at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. Actual results may differ from these estimates.

*Impairment of non-financial assets*

The Group assesses impairment of non-financial assets at each reporting date by evaluating conditions specific to the Group and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs of disposal or value-in-use calculations, which incorporate a number of key estimates and assumptions.

*Estimation of useful lives of assets*

The Group determines the estimated useful lives and related depreciation and amortisation charges for its property and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

*Fair value measurement*

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case, management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

	<u>155,366</u>	<u>(20,095)</u>

\* Rent concession represents concessions received by the Group from its lessor as a result of COVID-19 pandemic.

**8 EARNINGS PER SHARE (EPS)**

Basic EPS amounts are calculated by dividing the profit (loss) for the year attributable to ordinary equity holders of the Parent Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is calculated by dividing the profit (loss) attributable to ordinary equity holders of the Parent Company by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares. As there are no dilutive instruments outstanding, basic and diluted earnings (loss) per share are identical.

	<i>2021</i>	<i>2020</i>
Profit (loss) for the year attributable to equity holders of the Parent Company (KD)	595,841	(76,990)
Weighted average number of shares outstanding (shares) *	56,433,300	56,433,300
Basic and diluted EPS (fils)	10.56	(1.36)

\* The weighted average number of shares takes into account the weighted average effect of changes in treasury shares during the year.

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of authorisation of these consolidated financial statements.

<b>Net book value:</b>					
At 31 December 2021	802,442	124,488	39,747	12,439	979,116
At 31 December 2020	2,325,803	193,091	36,004	31,071	2,585,969

\* During the year, the Group rented out a portion of its building, previously used for its own administrative use and classified under property and equipment to a third party. As a result, the rented-out portion under an operating lease with a net carrying amount of KD 1,465,257 has been reclassified and accounted for separately as investment property at the date of change in use (note 10).

Kuwait Hotels Company K.S.C.P. and its Subsidiaries  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
As at and for the year ended 31 December 2021

**9 PROPERTY AND EQUIPMENT (continued)**

*Depreciation*

The depreciation included in the consolidated statement of profit or loss is allocated as follows:

	2021 KD	2020 KD
Cost of sales	180,365	184,499
Administrative expenses	87,613	212,321
Selling and distribution expenses	-	8,488
	<u>267,978</u>	<u>405,308</u>

*Disposals of property and equipment*

In 2021, the Group disposed items of property and equipment with a total net carrying amount of KD 1,544 (2020: KD 71,075) for a cash consideration of KD 21,514 (2020: KD 25,400). The net gain on these disposals amounting to KD 19,970 (2020: loss of KD 45,675) were recognised as part of other income (expenses) in the consolidated statement of profit or loss.

*Fair value disclosure of building on leasehold land*

The Group complies with the real estate valuation procedures set out in Module 11 "Dealing in Securities" of the CMA Executive Bylaws, which require valuations of local real estate properties classified as plant, property and equipment to be determined by at least two independent, registered and accredited real estate appraisers provided that one of them is a local bank and that the lower value is taken into account.

The fair value of the building on leasehold land as at 31 December 2021 is determined based on valuations carried out by the respective appraisers using the market comparison approach amounted to KD 855,070 (2020: KD 2,401,000).

Significant increases (decreases) in estimated price per square metre in isolation would result in a significantly higher (lower) fair value on a linear basis.

**10 INVESTMENT PROPERTIES**

During the year, the Group rented out a portion of its building, previously used for its own administrative use and classified under property and equipment to a third party. As a result, the rented-out portion under an operating lease with a net carrying amount of KD 1,465,257 has been reclassified and accounted for separately as investment property at the date of change in use.

	2021 KD	2020 KD
Rental income derived from investment properties (included in rental income)	148,074	-
Direct operating expenses (included in cost of sales)	(164,828)	-
	<u>(16,754)</u>	<u>-</u>

As at 31 December 2021, the fair value of the investment properties amounted to KD 1,455,930 (2020: KD Nil)

The fair value of the investment properties has been determined based on valuations obtained from two independent valuers, who are an industry specialised in valuing these types of investment properties, one of these valuers is a local bank.

Both valuers have used the following method for developed properties which generate rental income have been valued using the income capitalisation approach assuming full capacity of the property.

All investment properties are considered under level 3 of the fair value hierarchy, and there were no transfers between level 1 and level 2 fair value measurements and no transfer into and out of level 3 fair value measurements

	2021 KD	2020 KD
Trade receivables	1,304,643	1,488,847
Less: Allowance for expected credit losses	(661,203)	(648,950)
	643,440	839,897
Prepayments and other receivables	569,718	376,959
	<b>1,213,158</b>	<b>1,216,856</b>

The net carrying value of trade receivables is considered a reasonable approximation of fair value.

Note 23.1 includes disclosures relating to the credit risk exposures and on analysis relating to the allowance for expected credit losses on the Group's trade receivables. Other classes within accounts receivable do not contain impaired assets.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of receivables mentioned above.

Set out below is the movement in the allowance for expected credit losses of trade receivables:

	2021 KD	2020 KD
At 1 January	648,950	1,013,099
Net allowance for expected credit losses recognised in profit or loss	12,253	151,586
Receivables written off during the year as uncollectible*	-	(515,735)
	<b>661,203</b>	<b>648,950</b>

\* Trade receivables are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group, and a failure to make contractual payments for a period of greater than 730 days past due.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2021

13 CASH AND CASH EQUIVALENTS

	2021 KD	2020 KD
Cash at banks and on hand	838,713	610,778
Short-term deposits	1,971,541	1,639,037
	<u>2,810,254</u>	<u>2,249,815</u>
<i>Less:</i>		
Short-term deposits with original maturity of more than three months	-	(35,578)
<b>Cash and cash equivalents for the purpose of the statement of cash flows</b>	<u><u>2,810,254</u></u>	<u><u>2,214,237</u></u>

Short-term deposits are made for varying periods between one to six months, depending on the immediate cash requirements of the Group, and earn interest at an average effective interest ranging from 1% to 1.125% (2020: 1% to 1.125%) per annum.

At 31 December 2021, the Group had available KD 400,000 (2020: KD 400,000) of undrawn committed borrowing facilities that may be drawn at any time and may be terminated by the bank without notice.

14 SHARE CAPITAL

	<i>Number of shares</i>		<i>Authorised, issued and fully paid</i>	
	2021	2020	2021 KD	2020 KD
Shares of 100 fils each (paid in cash)	<u>57,750,000</u>	<u>57,750,000</u>	<u>5,775,000</u>	<u>5,775,000</u>

15 RESERVES

15.1 Statutory reserve

In accordance with the Companies' Law, and the Parent Company's Memorandum of Incorporation and Articles of Association, a minimum of 10% of the profit for the year before tax and board of directors' remuneration shall be transferred to the statutory reserve based on the recommendation of the Parent Company's board of directors. The annual general assembly of the Parent Company may resolve to discontinue such transfer when the reserve exceeds 50% of the issued share capital. The reserve may only be used to offset losses or enable the payment of a dividend up to 5% of paid-up share capital in years when profit is not sufficient for the payment of such dividend due to absence of distributable reserves. Any amounts deducted from the reserve shall be refunded when the profits in the following years suffice, unless such reserve exceeds 50% of the issued share capital.

15.2 Voluntary reserve

In accordance with the Companies' Law, and the Parent Company's Memorandum of Incorporation and Articles of Association, a maximum of 10% of the profit for the year before tax and board of directors' remuneration is required to be transferred to the voluntary reserve. Such annual transfers may be discontinued by a resolution of the shareholders' general assembly upon a recommendation by the Board of Directors. There are no restrictions on the distribution of this reserve.

15.3 Fair value reserve

The Group has elected to recognise changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated within the FVOCI reserve within equity. The Group transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognised.

15.4 Foreign currency translation reserve

Exchange differences arising on translation of the foreign controlled entity are recognised in other comprehensive income and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed of.

15.5 Other reserve

Other reserve represents the effect of changes in ownership interests in subsidiaries without loss of control.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2021

### 16 TREASURY SHARES

	2021 KD	2020 KD
Number of shares	1,316,700	1,316,700
Percentage of issued shares	2.33%	2.33%
Cost (KD)	223,952	223,952
Market value (KD)	92,169	72,419

Reserves equivalent to the cost of the treasury shares held are not available for distribution during the holding period of such shares as per CMA guidelines.

### 17 EMPLOYEES' END OF SERVICE BENEFITS

Set out below is the movement in the provision for employees' end of service benefits:

	2021 KD	2020 KD
At 1 January	779,971	908,769
Charge for the year	110,111	137,148
Payments	(238,925)	(265,946)
	<u>651,157</u>	<u>779,971</u>

### 18 TRADE AND OTHER PAYABLES

	2021 KD	2020 KD
Trade payables	140,411	258,322
Unearned revenue	576,297	567,786
Taxes payable	12,883	6,309
Advance from customers	23,676	23,315
Employee payables	344,760	216,628
Refundable deposits	89,038	76,098
Other accruals and payables	419,157	568,860
	<u>1,606,222</u>	<u>1,717,318</u>

Terms and conditions of the above financial liabilities are:

- Trade payables are non-interest bearing and are normally settled on 60-day terms.
- Other payables are non-interest bearing and have average term of six months

For explanation on the Group's liquidity risk management process, refer to Note 22.2

### 19 SEGMENT INFORMATION

For management purposes, the Group is organised into three main business segments based on internal reporting provided to the chief operating decision maker:

**Hotel Management:** Owning, operating and managing of hotels and chalets

**Catering and manpower supply services:** Providing catering and manpower supply services to governmental and non-governmental institutions.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on return on investments.

### NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2021

#### 20 CONTINGENCIES

At the reporting date, the Group has provided bank guarantees to its customers for the performance for certain contracts of KD 1,551,867 (2020: KD 1,019,700). No material liability is expected to arise.

#### 21 RELATED PARTY DISCLOSURES

Related parties represent associates, major shareholders, directors and key management personnel of the Group and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Parent Company's management.

Transactions with related parties included in the consolidated statement of profit or loss are as follows:

	<i>Major shareholder</i>	<i>Other affiliates</i>	<i>2021</i>	<i>2020</i>
	<i>KD</i>	<i>KD</i>	<i>KD</i>	<i>KD</i>
Revenue from contracts with customers	-	180,004	180,004	170,858
Management fees	177,384	-	177,384	90,148
Cost of sales	(105,600)	-	(105,600)	(105,600)
Administrative expenses	(52,781)	-	(52,781)	(62,029)

Certain investment in equity securities amounting to KD 84,755 (2020: KD 63,152) are managed by an entity under common control.

The following tables shows the outstanding balances with related parties:

	<i>2021</i>	<i>2020</i>
	<i>KD</i>	<i>KD</i>
<b>Consolidated statement of financial position</b>		
Amount due from related parties	130,965	118,926
Amount due to related parties	69,705	14,092

#### Terms and conditions of transactions with related parties

Transactions with related parties are made on terms approved by the Group's management. Outstanding balances at the year-end are unsecured and interest free and have no fixed repayment schedule. There have been no guarantees provided or received for any related party receivables or payables. For the year ended 31 December 2021, the Group has not recognised any provision for expected credit losses relating to amounts owed by related parties (2020: Nil).

#### Key management compensation

Key management personnel comprise of the Board of Directors and key member of the management having authority and responsibility for planning, directing and controlling the activities of the Group. The aggregate value of transactions and outstanding balances relating to key management personnel were as follows:

	<i>Transaction values for the year ended 31 December</i>		<i>Balance outstanding as at 31 December</i>	
	<i>2021</i>	<i>2020</i>	<i>2021</i>	<i>2020</i>
	<i>KD</i>	<i>KD</i>	<i>KD</i>	<i>KD</i>
Salaries and short-term employee benefits	160,972	202,645	28,777	25,564

	174,212	219,410	227,659	205,984

The Board of Directors of the Parent Company has proposed a directors' remuneration for the year ended 31 December 2021 (2020: Nil). Any such proposal is subject to the approval of the shareholders at the AGM of the Parent Company.

Kuwait Hotels Company K.S.C.P. and its Subsidiaries  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
 As at and for the year ended 31 December 2021

**22 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES**

Risk is inherent in the Group's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Group's continuing profitability and each individual within the Group is accountable for the risk exposures relating to his or her responsibilities. The Group is exposed to credit risk, liquidity risk and market risk which is further sub-divided into interest rate risk, foreign currency risk and equity price risk. The Group's policy is to monitor those business risks through the Group's strategic planning process.

The Group's principal financial liabilities comprise of accounts payable and accruals. The main purpose of these financial liabilities is to raise finance for the Group's operations. The Group has various financial assets such as accounts receivable and cash and cash equivalents which are directly from its operations.

The management of the Parent Company is ultimately responsible for the overall risk management approach and for approving the risk strategy. The management reviews and agrees policies for managing each of these risks which are summarised below:

**22.1 Credit risk**

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities primarily trade and other receivables, and from its financing activities, including deposits with banks.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets as follows:

	<i>2021</i>	<i>2020</i>
	<i>KD</i>	<i>KD</i>
Cash at banks	838,713	610,778
Short-term deposits	1,971,541	1,639,037
Trade receivables	643,440	839,897
Amounts due from related parties	130,965	118,926
Other receivables (excluding prepayments)	290,172	219,261
	<u>3,874,831</u>	<u>3,427,899</u>

***Balances with banks and short-term deposits***

Credit risk from balances with banks and financial institutions is limited because the counterparties are reputable financial institutions with appropriate credit-ratings assigned by international credit-rating agencies.

Impairment on cash and short-term deposits has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The Group considers that its cash and short-term deposits have low credit risk based on the external credit ratings of the counterparties.

***Trade receivables***

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate. The Group limits its exposure to credit risk from accounts receivables by establishing a maximum payment period of three months for individual and corporate customers respectively.

The majority of the Group's customers have been transacting with the Group for over three years, and none of these customers' balances have been written off or are credit-impaired at the reporting date. In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are an individual or a legal entity, whether they are a corporate or government entities, trading history with the Group and existence of previous financial difficulties.

Kuwait Hotels Company K.S.C.P. and its Subsidiaries  
 NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS  
 As at and for the year ended 31 December 2021

22 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES  
 (continued)

22.1 Credit risk (continued)

*Trade receivables (continued)*

At 31 December 2021, the exposure to credit risk for trade receivables and contract assets by type of counterparty was as follows:

	2021 KD	2020 KD
Individual customers	120,928	82,546
Corporate customers	251,297	235,786
Government	271,215	521,565
	<u>643,440</u>	<u>839,897</u>

At 31 December 2021, the Group had four customers (2020: four) that owed it more than KD 50,000 each and accounted for approximately 39% (2020: 32%) of all the receivables outstanding. There was one customer (2020: two customers) with balances greater than KD 100,000 accounting for just over 14% (2020: 41%) of the total amounts of receivable. There are no guarantees against these receivables, but management closely monitors the receivable balance on a monthly basis and is in regular contact with these customers to mitigate risk.

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written-off if past due for more than one year and are not subject to enforcement activity. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed below. The Group does not require collateral in respect of trade and other receivables. The Group does not have trade receivables for which no loss allowance is recognised because of collateral.

Set out below is the information about the credit risk exposure on the Group's trade receivables using a provision matrix:

	Current KD	Days past due			Total KD
		<90 days KD	91-180 days KD	>180 days KD	
31 December 2021					
Expected credit loss rate	-	1.53%	6.98%	88.95%	50.68%
Total gross carrying amount at default	280,533	180,843	111,723	731,544	1,304,643
Expected credit loss	-	2,758	7,793	650,652	661,203

	Current KD	Days past due			Total KD
		<90 days KD	91-180 days KD	>180 days KD	
31 December 2020					
Expected credit loss rate	-	1.68%	14.57%	75.70%	43.59%
Total gross carrying amount at default	457,670	172,117	6,947	852,113	1,488,847
Expected credit loss	-	2,883	1,012	645,055	648,950

*Amounts due from related parties and other receivables*

Amounts due from related parties and other receivables are considered to have a low risk of default and management believes that the counterparties have a strong capacity to meet contractual cash flow obligations in the near term. As a result, the impact of applying the expected credit risk model at the reporting date was immaterial.

## 22 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

### 22.2 Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's objective when managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group aims to maintain the level of its cash and cash equivalents at an amount in excess of expected cash outflows on financial liabilities (other than trade payables) over the next 60 days. The Group also managed liquidity risk by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

The steps taken by the Group to respond to possible future liquidity constraints arising from the COVID-19 pandemic and the impact of those steps on the consolidated financial statements include the following.

- Management has prepared a detailed cashflow analysis for the next 12 months to assess the liquidity position of the Group and identify liquidity gaps. Management has taken actions to reduce operating losses by employee furlough together with other employee cost reductions. Further, supplier costs decreased significantly, together with a reduction in non-essential operating and capital expenditure as a result of COVID-19.

In addition, the Group maintains the following other lines of credit, which remain undrawn at 31 December 2021.

- KD 400,000 overdraft facility that is unsecured. Interest is payable at the rate of CBK discount rate plus 200 basis points on any drawn amounts. (2020: KD 400,000).

The table below summarises the maturity profile of the Group's financial liabilities based on contractual undiscounted payments.

	<i>Less than 3 months KD</i>	<i>3 - 12 months KD</i>	<i>Total KD</i>
<i>31 December 2021</i>			
Trade and other payables*	<u>140,411</u>	<u>889,514</u>	<u>1,029,925</u>
	<i>Less than 3 months KD</i>	<i>3 - 12 months KD</i>	<i>Total KD</i>
<i>31 December 2020</i>			
Trade and other payables*	<u>258,322</u>	<u>891,210</u>	<u>1,149,532</u>

\* excluding unearned revenue

### 22.3 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise of interest rate risk, foreign currency risk, and equity price risk.

#### 22.3.1 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Financial instruments, which potentially subject the Group to interest rate risk, consist principally of cash and short-term deposits. The Group's term deposits are short-term in nature and yield interest at commercial rates. Therefore, the Group believes there is minimal risk of significant losses due to interest rate fluctuations.

As at the reporting date, the Group does not hold interest bearing liabilities.

## 22 FINANCIAL INSTRUMENTS RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

### 22.3 Market risk (continued)

#### 22.3.2 Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Foreign currency risk is managed on the basis of limits determined by management and a continuous assessment of the Group's open positions and current and expected exchange rate movements.

The table below indicates the Group's foreign currency exposure at 31 December 2021, as a result of its monetary assets and liabilities. The analysis calculates the effect of a reasonably possible movement of 5% in the KD currency rate with all other variables held constant, on the statement of consolidated profit or loss (due to the fair value of currency sensitive monetary assets and liabilities).

	<i>Effect on results</i>	
	<i>2021</i>	<i>2020</i>
	<i>KD</i>	<i>KD</i>
Egyptian Pounds	9,090	6,355
US Dollars	-	1,779
Oman Riyal	3,017	925
Qatar Riyal	1,739	1,106
Syrian pound (SYP)	1,838	3,861
Lebanese pound (LBP)	428	371

#### 22.3.3 Equity price risk

The Group's equity investments are susceptible to market price risk arising from uncertainties about future values of the investment securities.

The Group holds strategic equity investments in private entities, which complement the Group's operations. Management believes that the exposure to market price risk from this activity is acceptable in the Group's circumstances.

At the reporting date, the exposure to unquoted equity securities at fair value was KD 84,755. Sensitivity analyses of these investments have been provided in Note 23

## 23 FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in orderly transactions between market participants at the measurement date.

#### *Fair value hierarchy*

The Group uses the following hierarchy for determining and disclosing the fair values of its assets and liabilities by valuation technique:

- Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

The management assessed that the fair values of cash and short-term deposits, trade receivables, trade payables and other current liabilities approximate their carrying amounts as these are either of short-term maturity (no longer than twelve months) or re-priced immediately based on market movement in interest rates. For amounts due from (to) related parties that have no specified repayment dates and that are receivable (payable) on demand, management assessed that the fair value is not less than their face value.

The Group's financial assets measured at fair value represent unquoted equity investments classified as Level 3.

Kuwait Hotels Company K.S.C.P. and its Subsidiaries  
**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
As at and for the year ended 31 December 2021

**23 FAIR VALUES OF FINANCIAL INSTRUMENTS (continued)**

*Valuation techniques*

The Group invests in private equity companies that are not quoted in an active market. Transactions in such investments do not occur on a regular basis. The Group uses a market-based valuation technique for these positions. The Group's investment manager determines comparable public companies (peers) based on industry, size, leverage and strategy, and calculates an appropriate trading multiple for each comparable company identified. The multiple is then discounted for considerations such as illiquidity and size differences between the comparable companies based on Company specific facts and circumstances.

*Reconciliation of Level 3 fair values*

The following table shows a reconciliation of all movements in the fair value of items categorised within Level 3 between the beginning and the end of the reporting period:

	<i>Non-listed equity investments</i>

**Description of significant unobservable inputs to valuation and sensitivity analysis to significant changes in unobservable inputs within Level 3 hierarchy**

The significant unobservable inputs used in the fair value measurements categorised within Level 3 of the fair value hierarchy include discount for lack of marketability (DLOM) that the Group has determined that market participants would take into account when pricing the investments. The Group has also performed a sensitivity analysis by varying these inputs by 5%. Based on such analysis, no significant changes in fair values were noted.

**24 CAPITAL MANAGEMENT**

The Group's capital management objectives are:

- to ensure the Group's ability to continue as a going concern, and
- to provide an adequate return to shareholders by pricing products and services in a way that reflects the level of risk involved in providing those goods and services.

The Group monitors capital on the basis of the carrying amount of equity, less cash and cash equivalents as presented in the consolidated statement of financial position.

The Group is not subject to externally imposed capital requirements.

**24 CAPITAL MANAGEMENT (continued)**

The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2021 and 2020.

**25 IMPACT OF COVID-19 OUTBREAK**

The COVID-19 outbreak was first reported near the end of 2019. At that time, a cluster of cases displaying the symptoms of a 'pneumonia of unknown cause' were identified in Wuhan, the capital of China's Hubei province. On 31 December 2019, China alerted the World Health Organisation (WHO) of this new virus. On 30 January 2020, the International Health Regulations Emergency Committee of the WHO declared the outbreak a 'Public Health Emergency of International Concern'. Since then, the virus has spread worldwide. On 11 March 2020, the WHO declared the COVID-19 outbreak to be a pandemic.

As a result, the Group considered the impact of COVID-19 in preparing its consolidated financial statements. While the specific areas of judgement may not change, the impact of COVID-19 resulted in the application of further judgement within those areas.

Given the evolving nature of COVID-19 and the limited recent experience of the economic and financial impacts of such a pandemic, changes to estimates may need to be made in the measurement of the Group's assets and liabilities may arise in the future.

*Trade and other receivables*

The Group was required to revise certain inputs and assumptions used for the determination of expected credit losses ("ECL"). These were primarily related to adjusting the forward-looking estimates used by the Group in the estimation of ECL as the segmentation applied in previous periods may no longer be appropriate and may need to be revised to reflect the different ways in which the COVID-19 outbreak affects different types of customers.

The Group will continue to assess impact of the pandemic as more reliable data becomes available and accordingly determine if any adjustment in the ECL is required in subsequent reporting periods.

*Impairment of non-financial assets*

As at the reporting date, the Group has considered the potential impact of the current economic volatility in the determination of the reported amounts of the Group's non-financial assets and the unobservable inputs are developed using the best available information about the assumptions that market participants would make in pricing these assets at the reporting date. Markets however remain volatile and the recorded amounts remain sensitive to market fluctuations.

The Group acknowledges that certain assets may negatively be impacted, and as the situation continues to unfold, the Group will continuously monitor the market outlook and use relevant assumptions in reflecting the values of these non-financial assets as and when they occur.

*Fair value measurement of investment securities*

The Group has considered potential impacts of the current market volatility in determination of the reported amounts of the Group's unquoted financial assets, and this represents management's best assessment based on observable available information as at the reporting date. Given the impact of COVID-19, the Group is closely monitoring whether the fair values of its investment securities represent the price that would be achieved for transactions between market participants in the current scenario.

*Going concern assessment*

There is still significant uncertainty over how the outbreak will impact the Group's business in future periods and customer demand. Management has therefore modelled a number of different scenarios considering a period of 12 months from the date of authorisation of these consolidated financial statements in the light of current economic conditions and all available information about future risks and uncertainties. The assumptions modelled are based on the estimated potential impact of COVID-19 restrictions and regulations and expected levels of consumer demand, along with management's proposed responses over the course of the period. The impact of COVID-19 may continue to evolve, but based on the Group's liquidity position and financial resources as at the date of authorisation of these consolidated financial statements, the projections show that the Group has ample resources to continue in operational existence and its going concern position remains largely unaffected and unchanged from 31 December 2020. As a result, these consolidated financial statements have been prepared on a going concern basis.
